

# System Check-Up

EcoWise Irrigation LLC

**Ensure your irrigation system is running at its best with our comprehensive System Check-Up service.**

## What it is

Our expert licensed irrigator will identify any necessary adjustments, repairs, and maintenance to keep your system in optimal working order, preventing costly issues down the line.

The System Check-Up is a thorough inspection, starting from the meter and going all the way to the controller and spray heads. We evaluate each zone, looking for improvements while checking for signs of overwatering, underwatering, and stress in your turf and plants. This detailed run-through ensures your system is performing at its best, keeping your landscaped area healthy and efficient.

## What it involves

Here is a breakdown of what happens during the check

- Location of water meter box
- Check for master/isolation valves and evaluate condition
- Backflow location and condition check
- Controller check for basic settings and programming \*1
- Controller wiring check
- Rain Sensor Check
- Zone by zone check for repairs, damage and maintenance needs
- System leak check
- Copy of all inspection notes
- Estimate for remediation of all repairs/maintenance \*2

# Pricing

Pricing is dependent on the number of zones

	1 - 10 zones	11 + Zones
<b>System Check-Up</b>	\$150 flat rate	Hourly Rate
<b>Repairs/ Adjustments Estimate</b>	Hourly Rate + Parts	Hourly Rate + Parts

Hourly rate is \$100 per hour with a 1 hour minimum.

\*1. During the process minor timing adjustments can be made/recommended, however this service does not provide zone-by-zone exact recommendations.

\*2. All repairs identified are quoted and charged separately
